

Flexibility!

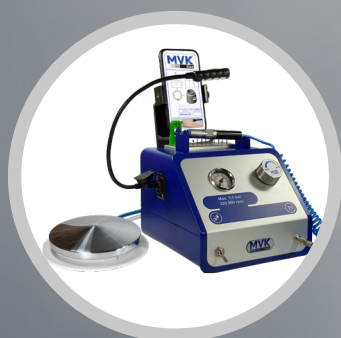

New

PA-2

No. 50000PA2

The new addition to our Micromotor family convinces with a versatile applicability.

- Digital speed display
- 1 motor connection compatible with all Silver Edition handpieces
- Magnetically fixed handpiece holder
- max. speed: 40.000 rpm
- max. counterclockwise speed: 40.000 rpm

LT-6

No. 50000LT6

To complement our powerful micromotors, we offer the LT-6 high-speed grinding turbine.

- Selection lever for quick change between hand and foot operation
- Ultra lightweight turbine handpiece
- Plug-in cell phone holder
- 2 USB ports for operating an LED light or charging battery devices e.g. smartphone
- Precise analog manometer
- max. speed: 320,000 rpm

Optional:

- LED-Light
- Cell phone holder
- Foot pedal

Scope of delivery: Laboratory turbine + turbine handpiece + handpiece holders.
Accessories available separately

Silver Edition

New

MVT-6

No. 50000MVT6

The new addition to our Micromotor family convinces with its versatility.

- 4.3" TFT color display
- 2 motor connections for quick change between handpieces
- Plug-in cell phone holder
- 2 USB ports for operating an LED light or charging battery devices e.g. smartphone
- Everything at a glance thanks to user-friendly system interface
- max. speed: 80,000 rpm
- max. counterclockwise speed: 30,000 rpm

Optional:

- LED-Light
- Cell phone holder
- Foot Pedal

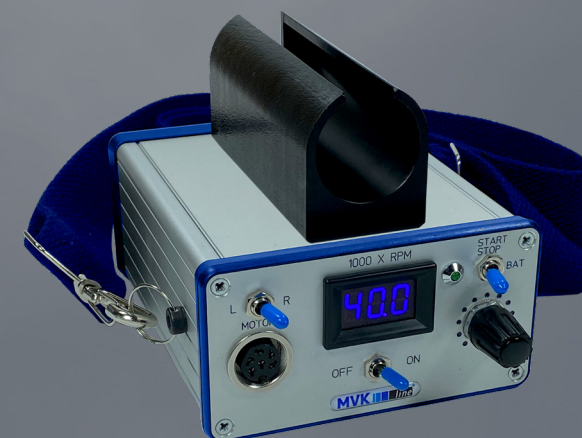

Scope of delivery: control unit + handpiece holders.
Accessories available separately

Silver Edition

The new Silver Edition is fully compatible with each other.

The resulting flexibility sets new standards in the use of micromotors. There is a suitable handpiece for every requirement and material composition. The powerful MVT-6 control unit impresses with its user-friendly system interface and clever design. The PA-2 battery control unit optimally complements the series with high battery life and equally high performance. The finest jobs are completed effortlessly with the LT-6 high-speed grinding turbine.

Great variety -

M1 - The Allrounder

No. 23000M1-SWFA

- max. speed: 60,000 rpm
- Torque: 7.8 Ncm
- Collet chuck: 3 mm
- Integrated motor cooling
- Ergonomic aluminum housing
- Quick clamping system

M5 - The Special One

No. 20300M5-SWFA (EVO)

No. 20400M5-SWFA (ESP)

- max. speed: 50,000 rpm
- Torque: 8.9 Ncm
- Adapter: EVO/ENESKA 4-1 or ESP/ENESKA 3-2
- Integrated motor cooling
- Ergonomic aluminum housing
- Easy head change by screw adapter

M7 - The Strong One

No. 23000M7-SWFA

- max. speed: 60,000 rpm
- Torque: 8.9 Ncm
- Collet chuck: 3 mm
- Integrated motor cooling
- Front fan for optimal visibility without chips
- Ergonomic aluminum housing
- Quick clamping system

M7L - The Long Professional

No. 23000M7L-SWFA

- max. speed: 50,000 rpm
- Torque: 8.9 Ncm
- Collet: 3 mm
- Extra long shaft for the more difficult tasks
- Integrated motor cooling
- Front fan for optimal visibility without chips
- Ergonomic aluminum housing
- Quick clamping system

M16 - The Fast One

No. 23000M16-SWFA

- max. speed: 80,000 rpm
- Torque: 8.9 Ncm
- Collet chuck: 3 mm
- Integrated motor cooling
- Front fan for optimal visibility without chips
- Ergonomic aluminum housing
- Quick clamping system

strong performance

M11 - The Beefy

No. 25000M11-SWFA

- max. speed: 30,000 rpm
- Torque: 11.6 Ncm
- Collet chuck: 6 mm
- Integrated motor cooling
- Ergonomic aluminum housing

M12 - The Collet Pro

No. 25000M12-SWFA

- max. speed: 60,000 rpm
- Torque: 8.9 Ncm
- Collet chuck: 6 mm
- Integrated motor cooling
- Ergonomic aluminum housing

WH1 - The Angle Pro 45°

No. 23045WH1-SWFA

- max. speed: 30,000 rpm
- Torque: 8.9 Ncm
- Collet chuck: 3 mm
- Integrated motor cooling
- Ergonomic aluminum housing

WH1 - The Angle Pro 90°

No. 23090WH1-SWFA

- max. speed: 30,000 rpm
- Torque: 8.9 Ncm
- Collet chuck: 3 mm
- Integrated motor cooling
- Ergonomic aluminum housing

WH1L - The long Angle Pro 90°

No. 22090WH1L-SWFA

- max. speed: 30,000 rpm
- Torque: 8.9 Ncm
- Collet chuck: 2.35 mm
- Integrated motor cooling
- Ergonomic aluminum housing
- Quick clamping system
